LakeTahoeWaterTrail.org

The **Cave Rock** area of Lake Tahoe's East Shore offers good paddling for all ability levels and the chance to paddle close to a rugged shoreline. Pine trees perched in a field of jumbled boulders and small inlets ringed with willows create an iconic picture of paddling on Lake Tahoe. This shoreline offers fantastic views, but not many public beaches to land on, so plan a day trip when launching from this area. The Cave Rock Boat Launch parking area fills early during the peak season; plan an early morning launch for paddling this part of the East Shore. Always wear your life jacket and SUP leash, carry a flashlight and whistle, and check conditions before you head out at [www.LakeTahoeWaterTrail.org](http://www.LakeTahoeWaterTrail.org).

Amenities

Public Lake Access Sites

**Cave Rock Boat Launch** Part of Lake Tahoe Nevada State Park, this facility serves both motorized and non-motorized boaters.

Yes

On-site parking year-round (fee area), restrooms, water, picnicking.

**Zephyr Cove Resort & Campground** One of three US Forest Service historic summer resorts on Lake Tahoe offering a year-round full range of visitor services.

Yes

On-site parking year round (fee area), camping (across the highway), lodging, restaurant/bar, kayak, SUP, & power craft rental, tour boat and boat charter, picnic sites, restrooms, beach volleyball. Find nearby: horseback riding, transit, Stateline casinos.

**Round Hill Pines Beach Resort** US Forest Service beach lies at the foot of the prominent Round Hill with views of the West Shore mountains.

Yes

On-site parking seasonal only (fee area), kayak, SUP, & power craft rental, restrooms, food, picnic tables. Kayak and paddle board storage available. Access to bike trails, shopping, transit, Stateline casinos.

> Afternoon summer winds from the south-southwest can create unpredictable waves along the East Shore with more limited public landing areas in which to shelter.

> Tahoe Yellow Cress (TYC), a small plant that is a member of the mustard family, exists on isolated beaches in this area. TYC is an endemic plant found on sandy beaches at Lake Tahoe and nowhere else in the world. It is easy to miss, so make it a practice to avoid walking or pulling your boat over any shoreline vegetation.

> Respect Private Property - Much of the Nevada shoreline is developed with impressive lakefront residential homes which is private property. The Nevada shoreline is private and no public access easement exists on beaches. Landing on these beaches is considered trespass unless permission is obtained from the owner. Homeowner association beaches can look as though they are public beaches, but no public launching or landing is allowed. *Please be respectful of residential privacy and land only at the public beaches shown on this map.*
